### Zenkaikon 2023

What a great way to start the convention season! We loved being able to see everyone after such a long hiatus away and everyone seemed to love our new wigs, soaps, candles, and hair accessories that we sold out of a lot more than we expected! Thank you so much everyone who came by!!

# Spring Collections

## Anime Corner

We aren't sure how everyone else is feeling but Chainsaw Man is one of our favorite anime's to watch lately. Because of that we have gotten Denji, Kobeni, Power and Himeno wigs that we are currently in the process of putting them on the website.

## Spring soap collection

One of our newest product lines is our vegan soaps that are small batched with an olive oil and coconut oil base with other butters and oils added. The spring collection has slice of patchouli, Duckie clean, rainbow delight, chocolate chip cookie sundae, green spa dreams, pretty fresh day and sunshine sweetie.
